Stankevicius | Group Profile

1. Executive Summary

Stankevicius is a diverse industry service provider for entrepreneurs, startups, SMEs and corporates. The primary industries that group is engaged with are digital, commodities and finance. The (1) digital sector includes everything from marketing and advertising, global public relations, global branding, strategic marketing, online communications, crisis management to telecom and big data technology development, including regular-standard technologies to blockchain development. (2) Commodity sector covers international trade facilitation of physical goods including petroleum products, natural gas, food supplies, office supplies, medical equipment and pharmaceuticals. (3) Finance sector includes private equity and IPO consulting as well as wealth management and investment consulting.

Stankevicius originated from Europe with the first official incorporation in Finland in 2015, although the fundamentals were already set in early 2014. By 2018, Stankevicius was already incorporated in the Middle East, Asia Pacific and had strengthen its' positioning in the Baltic's in Europe. The business was founded by passionate entrepreneur Paulius Stankevicius who is originated from Lithuania, Eastern Europe. Paulius spent a lot of time in Asia and Middle East connecting and growing the business, entering new fields of interest. Stankevicius business is operating nearly a decade, involves family members and is family ran consulting enterprise.

The primary activity of the business was oriented around marketing, advertising and public relations. This was and still is the core business activity of the entire group. Around this activity Stankevicius served hundreds of clients who primarily originated from financial background. Having experienced first hand financial industry, Stankevicius expanded the horizon further already in 2021 and involved financial services related consulting. Group's main activities are based on the strengths of the founder and his involvement in global markets. Paulius Stankevicius acts as a Chief Executive Officer with a vision on creating a global diverse consulting conglomerate by 2030.

4. Stankevicius Companies and Their Activities

Learn about Stankevicius operative companies and their business activities.

Stankevicius Group has 3 departments: Marketing, Finance and General Trading.

Stankevicius X

The Marketing department is administered under Stankevicius MGM and Stankevicius X. Stankevicius MGM stands for Masters in Global Media with a special focus on (1) corporate branding, strategic global marketing, special public relations, advertising, and (2) technology development and digital transformation. Stankevicius MGM is operated by Stankevicius Pacific Limited, Stankevicius Finland, Stankevicius Middle East Limited and Stankevicius MGM BY LLC. Stankevicius X is a newly launched brand with a special focus on (2) media branding for entrepreneurs, startups, SMEs, and (2) also IT development of technology projects including blockchain. Stankevicius X is operated by Stankevicius Pacific Limited only.

Stankevicius

Alternative Investment Banking

The Finance department is administered under Stankevicius Alternative Investment Banking also called "SAIB". SAIB has a special focus on (1) capital raising solutions from private equity and public markets, and (2) wealth management solutions and investment consulting. SAIB capital raising solutions are operated by Stankevicius Pacific Limited; wealth management and investing consulting operated by S-DAB LLC and a regulated *non disclosed prior NDA* Stankevicius partner company.

Stankevicius International

The General Trading department is administered under Stankevicius International with a special focus on international commodity trading (physical goods) whereas Stankevicius International provide clients most of the (1) general trade related services including but not limited to due diligence on merchandisers, secure contracting, logistics and shipping, physical goods inspection consulting and financial transaction supervision. Stankevicius International is operated by Stankevicius International Limited.

5. Stankevicius Products and Concepts

Stankevicius products include: Stankevicius Interactive Media, Business Terminal, Social Media Metaverse, and Stankevicius Terminal. Stankevicius concepts include: GIM.

Stankevicius MGM has developed a media publishing platform called Stankevicius Interactive Media which *as per database* includes over 75,000 media channels worldwide enabling clients to publish content directly into their selective media channel. While Stankevicius MGM assist clients on content creation and content strategy, clients have almost free will to write anything they want and publishing their content almost anywhere where they want (T&C applies). The platform was released in late 2019 and is available for corporate clientele only. To learn more about the platform visit interactive.stankeviciusmgm.com.

Stankevicius International has been developing a Business Terminal to ease the difficulty of global commodity trading. Stankevicius International discovered a lot of issues in the wild commodity market. These issues are being addressed by the top talent developers and analysts. Stankevicius International seeks to solve international trade matters with the help of technology. Business Terminal has been in the constant R&D phase since 2018. The platform requires a lot of data gathering to enable special voice based machine learning solution similar to AI, to create an exclusively unique experience for the end user.

Stankevicius X is working on a new play to earn social media project based in the Metaverse environment. Stankevicius believes that, this new 3D interactive social media world could be a total game changer for the entire social media space where social media goes 3D with gamified experience.

Stankevicius Alternative Investment Banking is developing a special Stankevicius Terminal platform with a special focus on helping companies go public in digital asset markets. The platform provides big financial data. As a matter of fact, it is under consideration to merge both projects, the Business Terminal and Stankevicius Terminal platform together, to make one ultimate big data multi-purpose platform for international clients to manage physical trade as well as online e-trade.

Stankevicius has also created a new marketing concept called *Google Index Marketing (GIM)*. Note that this concept is not associated with Google. GIM concept is about improving search results on Google. It's a special service offering in connection to media relations. In simple words, instead of blogging under a single domain, you'd rather want to publish content via third party media sites to increase Google search ranking and online visibility through quantity. To learn more about the concept visit googleindexmarketing.com.

7. Stankevicius Cross-Industry Track Record

Stankevicius has been in the business for nearly a decade and has consulted hundreds of clients worldwide from various industries including reputable companies.

Stankevicius Group has served nearly 600 private clients up to date for different matters from different industries. Majority of the clientele was contracted for public relations and advertising services. As Stankevicius expanded service offering to investor relations services, the group served clients also for private equity matters for capital raising. The total amount of capital raised that was assisted and supported by Stankevicius Group was over \$700M U.S. out of which \$200M U.S. were purely raised for private equity businesses and over \$500M U.S. were raised from public markets for digital asset IPOs. Stankevicius was recognized as #1 capital raising PR firm in 2018, and was awarded in 2020 for development of the media industry in Europe.

Stankevicius Group has consulted nearly 200 clients alone for the commodity trade matters of the physical goods. Already since 2016, Stankevicius has been actively involved in physical goods trade including metals, food products, medical equipments, natural gas and petroleum products. Stankevicius provided trade security and assurance services to clients resulting in at least \$5B in protected capital against fraud in the international trade industry. Stankevicius has also developed a very extensive and strong network of traders, brokers, suppliers and agents through out the mainstream product lines summing up to at least over 1000 relationships worldwide.

Stankevicius has worked with Fortune 500 companies and as of today keeps consulting large asset management companies and semi-government conglomerates from the U.S., South East Asia Pacific and the Middle East for public relations, investor relations, technology development and international trade security matters.
